

TDL-F

LAMINATION & SLITTER/REWINDER

Application : Suitable for laminating & slitting various adhesive tapes.

Specification : Machine Width : 1.0M/1.3M/1.6M Max. Unwind O.D : Main Web: 600mm, Lamination: 400mm
 Rewind Core I.D : 77mm Min. Slitting Width : 50mm
 Max. Rewind O.D : 400mm & 600mm Machine Speed : 120M / Min

Features:

1. Equipped with 2 connected unwind bases, both are independently on operation and auto tension control.
2. Shorter distance of unwinding laminated material to save production loss and also easy to change release liner.
3. The distance and pressure of lamination are controllable as per different materials to make quality lamination.
4. Slitting by shear cutter, which is designed for multi-purpose materials slitting.
5. Driven by connective 3 A.C motors, which is able to control tension on air shaft and linear speed on differential shaft.
6. Center type winding. Rewind shaft is fixed on the frame, finished roll unload by swing out type unloading rack.

Optional Parts:

1. Protection film feeding device
2. Rewind lay on roller
3. Rewind differential shaft
