**FF 4 SHAFTS AUTO CUTTER**

---

**Application:** Suitable for cutting PVC, Masking, Double-sided tape, etc.  
(4 shafts cutting at a time, fourfold production capacity).

**Specifications:**  
- Machine Width: 1.3M/1.6M  
- Max. Cutting O.D.: 130mm  
- Paper Core I.D.: 26-77mm (1”-3”)  
- Min. Cutting Width: 3mm

**Features:**  
1. Cutting shaft and circular blade are driven by A.C motor with inverter control, which is able to set RPM and running direction forward/reverse upon setting.  
2. Width setting is controlled by servo motor with ball screw and guide rails for precise movement.  
3. All functions operate under LCD touch panel control, which is user friendly for all data setting.  
4. Central system is controlled by PLC unit, in which it has material cutting memory mode and all electrical devices conform to the latest European CE regulation for safety operation.  
5. Knife feeding is controlled by servo motor and cutting speed is adjustable in 3 stages.  
6. Equipped with knife angle auto adjustment controlled by servo motor, cutting angle is adjustable from –8 to +8 degree per setting for making roll surface smoothly.

**Optional Parts:**  
1. Other Size Cutting Shaft: It can be made as per required core I.D.  
2. Shaft Supporter: To support log roll for cutting core below 38mm with shaft end supporting configuration.
